August 28, 2009

To: Dr. Severson and Members of the NCNM Curriculum Review Committee

From: Thomas Kruzel, ND

I am submitting an elective course, '*Emunctorology; integrative application of the science and the principles of naturopathic medicine*' to the NCNM Curriculum Review Committee for your consideration. I would like to offer this course to NCNM students during the 2009-10 academic year if it is approved. I have been involved in the core working group of naturopathic physicians, clinicians and faculty who developed this course and its associated online resources.

Dr. Bettenburg is sponsoring this proposal, and I plan to invite Dr. Thom to give a guest lecture as a part of the course. This is a 22-hour course which can be offered on a weekend. The attached materials provide background information and a lecture by lecture outline, including course competencies and student self enrichment activities.

I am available to answer further questions concerning the course and look forward to your evaluation, feedback and decision.

Respectfully,

Thomas Kruzel, ND
